

LEADING *Change*

2022 ANNUAL REPORT

LETTER FROM LEADERSHIP

SEEK THE KINGDOM OF GOD ABOVE ALL ELSE AND LIVE RIGHTEOUSLY, AND HE WILL GIVE YOU EVERYTHING YOU NEED.
Matthew 6:33

Greetings from Fountain of Hope,

First, we are so thankful to the Lord! Thank you friends and partners for supporting us through prayer, advocating, and funding.

We continue to focus on the process of developing leaders. This is the foundation for sustainability in our programs and villages. We believe the Word of God will transform the life of a leader to become an instrument of His work and encouragement to others. The Lord faithfully grows and matures leaders for the good of His kingdom.

This year brought the Lord's blessing for the new leadership team structure. The Lord has brought us out of the darkness and into the light... "that we may present every man complete in Christ. For this purpose also I labor, striving according to His power, which mightily works within me." (Colossians 1:28-29) Fountain of Hope works to see this transformation in all of God's people and empower them to become spiritual influencers and responsible members of their communities.

We are truly grateful for the earnest prayers and support from our friends and partners, and we give God the glory for all He has done.

In Him,

Nareth Peang,
on behalf of the Fountain of Hope Executive Team

Our leadership team (left to right): Ven Soknen, Ratha Yun, Nareth Peang, Touch Sopha, Peang Phay, Sophon Monophal, Ly Oin, Min Sokha

OUR MISSION IS TO EQUIP
AND EMPOWER PEOPLE TO
BE AGENTS OF HOLISTIC
TRANSFORMATION IN THEIR
COMMUNITIES THROUGH
THE LOVE OF CHRIST.

FOUNTAIN OF HOPE

During the 1970s, Pol Pot and the Khmer Rouge communist regime tortured and executed an estimated 2 million men, women and children, inciting years of civil war and United Nations occupation. Now, a small middle class is emerging, though heartbreaking poverty is still the norm. Half of the population is under the age of 25 and it is this generation that will greatly influence Cambodia's future.

God has made amazing progress in Cambodia during the past 25 years and Fountain of Hope (FOH)

believes it can play a crucial role in winning this impoverished, war-torn country to Christ.

FOH works through local cell churches mobilizing community members to respond to social, physical, and spiritual needs with biblical principles. By sharing what they have learned with families, friends and neighbors, individuals demonstrate Christ's love, become natural leaders, and create a greater impact than FOH staff could produce alone. FOH's extensive volunteer network allows them to implement programs, identify needs, and distribute resources.

WHERE WE WORK

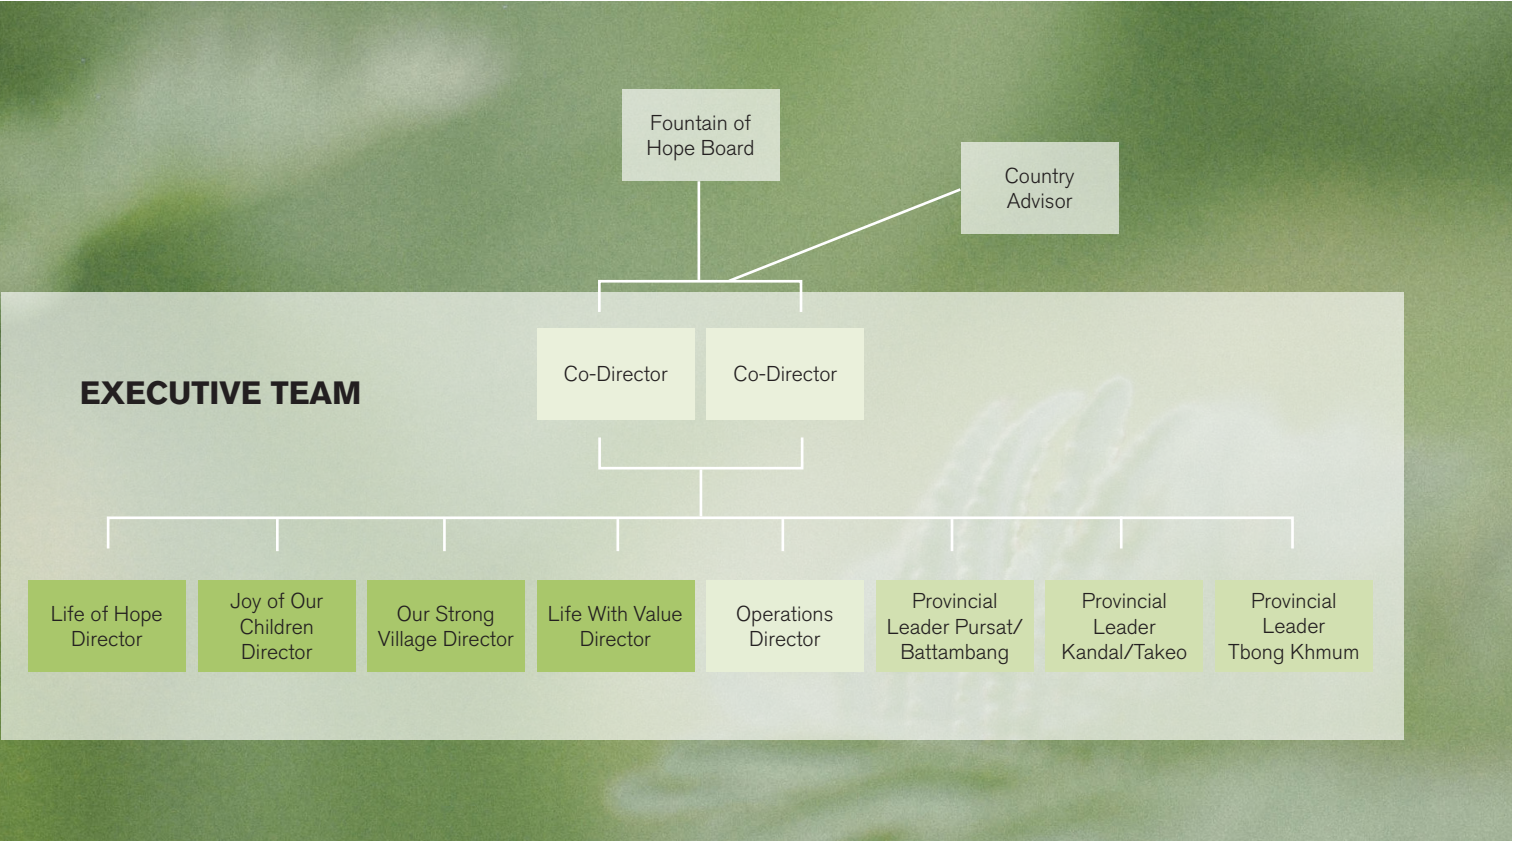

Currently, Fountain of Hope operates in 5 provinces: Pursat, Battambang, Tbong Khmum, Kandal and Takeo, in over 142 villages. The main office is in Phnom Penh.

63
Fountain of Hope staff

MEET OUR LEADERSHIP TEAM

In 2022, we restructured our leadership team. We have an executive leadership team of eight persons; four people that have expertise in the four programs, an operational officer and three provincial leaders. Two people of the executive leadership team are the executive directors; Mr. Peang Nareth and Mr. Ratha Yun. The directors represent Fountain of Hope to the national government and to donors and partners.

The new structure puts us in a more strategic position long term. It raises strong leadership within the organization, while effectively utilizing the expertise of each leader for our programs.

Nareth Peang
Co-Executive Director
Operations Director

Nareth started following Christ at age 17. He completed his studies at Phnom Penh Bible School, earned a bachelor's degree from Build Bright University, and a master's in business administration from National University of Management. Before coming to Fountain of Hope in 2014, Nareth served for over 15 years with World Relief Cambodia as a Bible trainer, provincial program leader, chief information officer and member of the senior management team. Nareth and his wife, Nary, have two children, Caleb and Jedidiah.

Ratha Yun
Co-Executive Director
Life with Value Program Director

Ratha graduated from Westminster Theological College and Seminary and earned a Master's Degree of General Management from Build Bright University. He serves as the Co-Director of FOH and Life with Value Director. He is grateful to serve in the communities and equip members to protect themselves from trafficking and other harm. He wants to see local leaders developed and the next generation become God's ambassadors for their communities.

Sophon Monophal
Takeo and Kandal Provincial Leader

Monophal graduated with his bachelor's degree in management from a local university in Phnom Penh in 2010. He worked with World Relief Cambodia from 2000-2014 as a children's teacher, provincial leader and director of programs in the Kandal province. Monophal is the Fountain of Hope provincial leader for the Takeo and Kandal provinces. He desires to encourage, pray for, and support his colleagues and to see vulnerable people empowered to live out God's plan for them.

Ven Soknen
Joy of Our Children Program Director

Soknen grew up in a poor Buddhist family and came to Christ in 2000. He now serves as the Joy of our Children (JOC) Director. His goal is to support, pray, and encourage teamwork among the staff to fulfill all that God calls them to do in serving the children in Cambodia. He desires to see the JOC program continue in sustainability and grow further throughout Cambodia.

Touch Sophal
Tbong Khmum Provincial Leader

Sophal was born in 1980 in Kampong Cham to a large family, making livelihood difficult. In 2001, he heard the story of Nicodemus. Through John 3, he understood he needed to be spiritually reborn through Jesus. Sophal then gave his life to God. He helped in Sunday school programs and later assisted in church planting in Takeo and Kandal provinces. He wants to see an end to domestic violence and drug addiction so that families will find happiness and hope.

Peang Phay
Our Strong Village Program Director

Phay earned a Bachelor's degree in psychology from Phumin Phnom Penh University. Before joining FOH in 2014, he served as a Community Development Facilitator with International Cooperation Cambodia and as a District Health Facilitator with RHAC. Phay wants to see the poor and destitute come to understand their own value. He wants them to experience God's transformative love and learn how to share that love with those around them through FOH.

Ly Oin
Pursat and Battambang Provincial Leader

Ly Oin received a bachelor's degree in management from the University of Management in Pursat. He received biblical training from KFCI Bible School in Phnom Penh and KBS in Kompong Som. Before joining FOH in 2016, he served two years pastoring Borey Santepheap Church and two years at a prison ministry. He worked for World Relief Cambodia from 2008-2016 as a monitoring and evaluation officer, and a provincial leader. He now serves as the provincial leader in Pursat and Battambang provinces.

Min Sokha
Life of Hope Program Director

Sokha was born during the Pol Pot regime. He worked in rice fields, closely watched by the Khmer Rouge guards. In 1992, Sokha found hope in Christ. After putting his faith in God, he saw his life change. He served in the Hope Program as a youth and adult Bible teacher. He also served as an assistant pastor for a local church for the last 18 years. Sokha joined FOH in 2021 as the Life of Hope Director, overseeing cell church planting and leadership training.

Joke van Opstal
Country Advisor

A registered nurse originally from the Netherlands, Joke (pronounced "YO-kuh") began her missionary career working in a refugee camp in the early '90s as part of Youth with a Mission (YWAM). She moved to Cambodia in 1993, joined World Relief in 1994 and established Hope for Cambodia's Children. Before launching Fountain of Hope, she served in various leadership roles for World Relief Cambodia. Joke has completed studies at the Discipleship Training School, School of Biblical Studies and School of Frontier Missions. She is also a single mother of six adopted children.

Joy OF OUR CHILDREN

SPIRITUAL AND HEALTH EDUCATION FOR YOUTH

Transformational Goal:
Children find their identity in Christ, have hope for the future and impact their communities by practicing healthy lifestyles and living Christ-centered lives.

Children ages 5-12

Bi-weekly neighborhood meetings for children ages 5 to 12 offer lessons about safety, health, hygiene and the love of God through songs, Bible verses, skits and puppet shows.

8,837
CHILDREN IN
109 GROUPS

Teenagers ages 12-18

Teen programs focus on health care, HIV and the prevention of STDs, care for people living with HIV, improving self-worth, wise decision-making and planning for the future.

1,673
TEENS IN 131
GROUPS

Buddy System

Teenagers and children from the Joy of Our Children (JOC) program are encouraged to participate with the Buddy System. This program is an opportunity for teenagers to serve the vulnerable children in their communities. Participants are paired with a younger child, a "buddy," and attend trainings on how to support and encourage their buddy. Their duties consist of mentoring, helping their buddy with homework, housework, and chores, along with emotional, spiritual and relational support.

MEET Rothna Yi*

“*This team shaped my desire to focus on studying and my future.*”

My name is Rothna Yi. I am 18 years old and live in the Takeo province.

I play football through the Joy of Our Children program. I enjoyed watching people play football and wanted to be on a team. One day, I watched the Fountain of Hope coach teach the teens how to play football at my high school field. I noticed the way he treated them with care and love. After he finished coaching, I met him and had a great time talking and sharing our love for football. Then, he invited me to be on the football team. I was very happy!

This football project is not just about playing the game but also has offered me a chance to grow my knowledge of health, drug addiction, HIV/AIDs, sexually transmitted diseases, and life skills. It made me braver to make new friends, build teamwork and invite other youths to join my football team. This team has kept me busy and taught me a lot. It prevented me from using drugs or wasting my time hanging out with bad friends. It shaped my desire to focus on studying and my future.

Thank you, Fountain of Hope, my coach, and my teammates for all the learning, playing, fellowship, encouragement, and inspiration you have been to my heart and mind. You have transformed me for good and my future is bright. I love and respect everyone.

**Name has been changed.*

MEET Boren So*

Greetings! My name is Boren So. I am 14 years old and live in the Pursat province. I am in sixth grade and the oldest child of three. My parents are farmers.

One day my principal informed the students that the Fountain of Hope staff would present about the Buddy System in the Joy of Our Children program at our school. I loved learning about the program. It reminded me of my desire to help the little ones in my village. Many children stay home with grandparents while their parents are away for work. They are lonely, vulnerable, and often miss school. The grandparents let them play in the dirt, and wear dirty clothes, and the children are often sick and always have runny noses.

The first day I attended the program, the FOH teacher introduced me to a twelve-year-old female student. I felt love for her the first time we met. I agreed to be her Buddy, God's sister. We always meet during the Buddy System class. And I also spend time with her at home on weekends. We play and eat mango with salt together. I helped her with reading and mathematics, and her studies improved. Her grandparents are very happy!

Thank you, FOH teacher for connecting me with the Buddy system. I got to do good work through your teaching and be a good God's sister.

Thank you, teacher!

**Name has been changed.*

“*It reminded me of my desire to help the little ones in my village.*”

OUR *strong* VILLAGE

COMMUNITY ACCESS TO SUSTAINABLE RESOURCES

Transformational Goal:
The local church responds to the entire continuum of needs of vulnerable people across communities, so that community members can have access to sustainable resources.

Cow Banks

Cow banks are organized by an established local committee to address the needs of impoverished widows within a community. Widows learn how to raise and care for a cow, eventually receiving offspring from the cow. These women are able to support themselves and raise their

status in the community by raising the cows and the offspring the cows produce.

19
WIDOWS HAVE RECEIVED A COW

Vegetable Garden Project

Cell churches and community groups receive trainings from experts on how to efficiently select seed types, grow their produce, and care for the village garden. Some seeds are given to the group and shared among the community, especially to those who are in need. The gardens provide a healthier food source and a new source of income. This develops unity through the communal gardens. Those who are successful become a pool of knowledge and transfer what they know to others in their villages.

116
GARDEN GROUPS

Seed Bank

With an established local committee, the Seed Bank project enables communities to have a way to be good stewards of their land. Members from both cell churches and the community are trained with technical skills on how to plant, use proper fertilization, and care for their plants. After technical training, the members, especially those in need, receive seeds for planting.

16
VILLAGES WITH SEED BANKS

Chicken Bank

Cell churches and community groups learn how to efficiently raise and care for chickens. Poor families receive some of the chickens that are bred to begin raising their own. In this way, families are able to support themselves and have a way to build their income. Those who benefit from the program are encouraged to share their knowledge with others.

136
FAMILIES INVOLVED IN THE CHICKEN BANK

Savings Banks

Members learn how to plan their finances and save money as a group. Through a group savings, the members support one another while being accountable for loans and savings. So far, the project has supported families with loans to build a livelihood through purchasing

chickens, sewing machines, seeds and other opportunities.

144
MEMBERS IN 13 ASSOCIATIONS

Moringa

Moringa is an edible plant that is used medicinally and as a dietary supplement for those who are malnourished or have common illnesses. Through OSV programs, cell churches and community members learn the benefits of moringa and how to plant moringa in their homes.

113
MORINGA GROUPS

18 FAMILIES HAVE RECEIVED A GOAT

MEET Phon

My name is Phon Vannak. I am 44 years old and married with 5 children. My wife and I are farmers living in the Pursat Province. We attend cell church led by the Fountain of Hope staff. My wife and I have received training about a variety of topics. We became very interested in the Goat Bank project.

My wife and I prayed about the Goat Bank project. We have a dream of owning a goat farm in the future. I spent my time researching and watching YouTube about how to raise goats and the environments best for goats.

One day, I decided to tell the FOH staff who leads my cell church about my dream. He encouraged me to apply for goats at the Goat Bank so I did. A few days later, the Goat Bank Committee approved my request to raise the goats. I was so happy and rushed home to build a goat barn with the measurements provided by FOH. Soon after, the FOH staff brought five goats to my house, four females and one male. I was a little nervous and happy for my first experience raising goats. But I knew my yard would be a good space for goats. So far, my female goats have given birth to two kids, and the other female goats are pregnant. I am thrilled with these results!

When I saw those five goats, I knew God had heard my prayer. He made my goal of opening a goat farm possible. God knows the desire of my heart. I am amazed at how He directed me toward my dream. First, He led me to attend a cell church then, I received an orientation about the Goat bank project, fell in love with it, prayed about it, researched information about goats, and received approval for raising goats. Finally, the five goats arrived at my home. It taught me to wait patiently in the Lord; He blessed my family.

Thank you, FOH teacher for encouraging me to raise the goats. God used FOH to fulfill my dream. You are such a blessing to our family.

God bless you!

We are grateful to partner with Partners International in distributing Bibles and for several of our OSV programs.

Goat Banks

Goat banks are organized by an established local committee to address the needs of impoverished families or widows within a community. Widows learn how to raise and care for a goat, eventually receiving offspring from the goat. They are able to support themselves and raise their status in the community by raising the goats and the offspring the goats produce.

MEET Ouern

My name is Ouern Ear. I am 41-years-old and a widow with a seven-year-old daughter living in the Tbong Khmum province. In 2018, I received a cow from Fountain of Hope. Later, I got a calf. I loved and took good care of the calf, and after two years, she gave birth to a calf!

Because I took good care of the cow, I asked the Cow Bank Committee if I could raise the two calves. The cows I raised are expensive because they are in good shape and a large breed. The cows are gentle and easy to raise. My cows gave birth to calves every year. I am very happy because the value of these cows is too much! When I was raising the cow, the FOH teacher visited me once a week to encourage me. Sometimes the cow was sick, and he helped me treat the cow. I felt like he is my brother or guardian.

I am most grateful that I accepted Jesus through the Cow Bank program. I thank God for blessing me through the Partners International donor. I promise to take good care of all the cows, and I hope it will improve my life and help my daughter study.

Update:

- **First cow:** Ouern began raising a cow from the Cow Bank program in November 2018.
- **First calf:** the cow gave birth to a calf in 2019. Ouern kept and raised that first calf.
- **Second calf:** this first calf gave birth to a second calf. The Cow Bank Committee agreed to her request to raise the second calf. It was pregnant but miscarried. Afterward, the FOH staff treated the cow until it was healthy again. It couldn't bear calves any more so we decided to sell it.
- **Third calf:** the cow gave birth to another male calf. After Ouern cared for the calf for some time, she sold it and used the money to support her family.
- **Fourth calf:** the cow gave birth to another male calf in November 2022. The cow and calf are healthy.

The Cow Bank contract is fulfilled (as the given cow already gave birth to 4 calves). We rejoice over the success of our work. Ouern Ear also got married and has a better life!

“I am most grateful that I accepted Jesus through the Cow Bank program.”

LIFE WITH *value*

SUPPORT GROUPS AND CURRICULUM TO ADDRESS COMMUNITY NEEDS

Transformational Goal

Establish healthy communities through a curriculum designed to raise awareness about relevant issues and promote positive behavior change in adults and teens. Community support groups emphasize prevention as they address trafficking, migration, HIV/AIDS, domestic violence, parenting and health education.

HIV/AIDS and Domestic Violence Support Groups

People living with HIV/AIDS face discrimination, rejection, financial vulnerability and physical suffering. Those who become victims of domestic violence are prone to isolation and fear. FOH focuses on mobilizing and equipping local church volunteers to respond to these problems with the compassion of Christ. Local cell churches provide

access to prevention resources and family value education, care for people living with HIV, support for orphans and economic assistance for affected families.

167
TRAFFICKING OR
DOMESTIC VIOLENCE
VICTIMS IN SUPPORT
GROUPS

Community Leader Facilitated Meetings

Because Cambodia is considered a source, transit, and destination country for human trafficking, it is crucial to incorporate messages on prevention and child protection. Curriculum for leaders and influencers in the community provides awareness of how traffickers operate; instruction on the value of all people and tips for safe migration. The lessons also address domestic violence, alcohol and drug abuse and gambling.

126
COMMUNITY
BASE LEADERS

Health Education

Local village and cell church gatherings receive preventative health lessons detailing how to treat Dengue fever, diarrhea, malaria and other preventable life-threatening diseases.

Parenting

Lessons provide information about a child's growth and development and how to care for children. Additionally, the lessons address anger management and each person's responsibility within a family.

1,580
MEMBERS IN
130 LIFE WITH
VALUE GROUPS

MEET Chhourn

My name is Chhourn Van and I am 65 years old. I retired from being a commune council member. My wife and I love serving the people in our community. We have always desired for everyone to live peacefully together in our community. Domestic violence results in family separation, death, injured children, disability, or mental health problems.

In 2015, a Fountain of Hope staff member asked me to support the implementation of the Life with Values program in our community. I sat down with him and learned about the program and lessons he planned to teach in our group. I realized the lessons could help our community and aligned with my desire to stop domestic violence. I decided to support the program and register for it because I wanted to learn too.

I completed the Commune Council Group Leader (CCGL) training. The course helped me to learn about domestic violence, legal and illegal migration, drugs, human trafficking, child protection, child rights, child values, common colds, maternity care, dengue fever, and malaria. After I completed the course, I promoted and applied those lessons to my work as a commune council member to help protect children, men, and women in my community.

I still apply this knowledge daily even though I am 65 years old. I keep searching for the most vulnerable victims. In 2023, I learned that a friend in my community abused his wife and children. I met with him and explained the effects and solutions of domestic violence. I encouraged him to join the Life with Values project and he did. His life changed; he became a new person! He loves and cares for his family. I then encouraged him to become a CCGL volunteer and he did. I am so happy for him and his family.

I am committed to sharing, promoting, and encouraging others to take a CCGL course with Fountain of Hope. This program produces a positive impact on participants' lives and the people around them. Thank you, Fountain of Hope!

“I encouraged him to join the Life with Values project and he did. His life changed; he became a new person!”

MEET Sorn

My name is Sorn Lor. I am 73 years old and live in the Pursat province. I am married with 12 children; three daughters and nine sons. My wife and I are infected with HIV/AIDs and struggle to earn enough money to feed our children. We try to grow vegetables in a small garden around our home and work on other farms to earn extra income. Life is hard.

Our family has felt hopeless and helpless as I try to hide from everyone that my wife and I have HIV/AIDs. We fear discrimination, shame, isolation, being ignored, mistreatment, and despair from others in our community. We try to endure the experiences of panic, discomfort, disorientation, and marginalization. We struggle with health care every time we get sick and need hospitalization.

When the Fountain of Hope staff in my village learned my wife and I are living with HIV/AIDs, they invited me to join a support group. Every time I attended the support group, I focused on investigating the people with HIV/AIDs, not the health and hygiene lessons, because I thought I knew everything.

One day, I became very sick, my health deteriorated, and I could not leave my house to earn money as usual. As a result, I used my family savings on health care. I felt disappointed with my carelessness in my health. I blamed myself for not paying attention to the lessons. I decided to return to my support group and humble myself to learn and apply the lessons and share the knowledge with the people around me. I chose to be an active member of the Life with Value program because I wish for everyone to live longer with their loved ones.

I thank Fountain of Hope for educating our support group. I wish you great success in your work.

Thank you!

“I chose to be an active member of the Life with Value program because I wish for everyone to live longer with their loved ones.”

LIFE OF *hope*

SPIRITUAL IMPACT THROUGH CELL CHURCHES

Transformational Goal

Grow and expand the Kingdom of God through the multiplication of cell churches. New Christians encounter the reality of the Father's deep love for them, finding their identity in Him. Their own lives change with this knowledge and they are energized to reach their communities with the gospel and compassionate care. They join with cell churches with a commitment to become agents of transformation in the community. Cell churches intentionally reach out to every person and family in their communities, regardless of religion, age, gender, health, or economic condition.

Cell Churches

Cell churches are a form of house church where Christians meet together to praise, worship, learn, and grow together. A cell church consists of 6 to 12 members who meet in one of their homes. First, a FOH staff member leads and facilitates the cell church. Then, when they are strong enough, a trained and appointed local cell church leader leads the group. As the cell church grows, the members and their leader are encouraged

to establish a new cell church. Cell churches demonstrate the love of Jesus Christ as they serve their communities.

2,329
PEOPLE IN 207 CELL
CHURCHES

Mobilizing Volunteers

Through lessons and trainings, cell church members serve as volunteers in the community. They also take responsibility for church growth by sharing the gospel and dividing into new cell churches. They become agents of holistic transformation by sharing with their community the health lessons, social issue principles, and livelihood skills they have learned, practiced, and experienced for themselves.

Leadership Training

Formal training is available to increase cell church members' potential and capacity to become mature leaders. Members are equipped with biblical, agricultural, livelihood, health and social rights training.

Literacy Program

The ability to read is something many take for granted. Cell church members volunteer to teach other members how to read and write. The curriculum includes Bible lessons as practice for reading. Participants can read and sign documents, but also grow in confidence. Our literacy groups see individuals grow in confidence as they experience the power of literacy.

"I have prayed for a long time to be able to read and write and God answered my prayer!" says 55-year-old woman and cell church member.

MEET Chamroeun

Greetings, my name is Chamroeun Pich Chenda. I am 25 years old and live in the Takeo Province.

I grew up in a family with no present father since my childhood. My father's absence hindered my development from childhood to adulthood. The greatest missing piece is my father's love. What I remember most about my childhood is that my mom had to work hard to feed the children. Our family lived a miserable life, children got sick often, and none of my siblings attended school.

During our suffering, God sent Fountain of Hope staff to bring us the Good News of Hope while we had none. After my family accepted Jesus, people blamed us, persecuted us, and disturbed us with evil spirits. I always asked God to help me overcome temptation and the illusion of evil spirits. He healed me from sickness and helped me endure many difficulties. The two greatest things I am thankful for include when God saved me when I had a miscarriage and almost died because the hospital is far from my home. And the other one is God saved my brother from committing suicide while the demon possessed him. I am grateful for these things.

Life of Hope helped me be steadfast in my faith and love God even more. When I faced problems or difficulties, the Fountain of Hope staff were always there for me, encouraging, mentoring, and praying with me. After I joined the Life of Hope program, God healed my heart with the Heavenly Father's love. May this program continue to lead, teach, and remind us of our faith. Do not stop. I want to learn to read and write so I can read the scriptures in the Bible. I want to grow in a relationship with God, knowing His will, His way, and His word. I want to bring hope and peace to others, so it may open their hearts to all God wants to give them.

“After I joined the Life of Hope program, God healed my heart with the Heavenly Father's love.”

MEET Neang

Greeting from Cambodia!

My name is Neang Navy. I am 32 years old and live in the Tbong Khmum province. Until recently, I could not read or write. I had difficulty getting detailed information from signs, and had to depend on others often, especially to fill in my information on forms.

When I became a Christian, I joined a cell church with many others who could not read or write. We depended on our cell church leader to read the Bible during our meetings. I always prayed to God for the ability to read His word. One day, I got the courage to ask the Fountain of Hope teacher to conduct a literacy class for my cell church members. He agreed to set aside time for us to learn reading and writing. For the first month, I struggled with memorizing the alphabet and vowels. When I put more effort toward my reading goal, I found myself full of courage to carry on my study. I learned to spell word by word until I could read it by myself. I told myself that “illiteracy cannot stop me from reading once I reach my goal.”

Now, I am a literacy trainer. I train members in my cell church to read and write. When someone struggles with laziness to learn, I share the difficulties I experienced before I knew how to read and write. I also explain that to experience a personal relationship with God, you must know how to read His word and share God's love with others.

I thank the FOH staff who are willing to help me with reading and writing. Your training brought an ever-lasting change in my life. And I can always share the knowledge you gave me with those around me. God bless you!

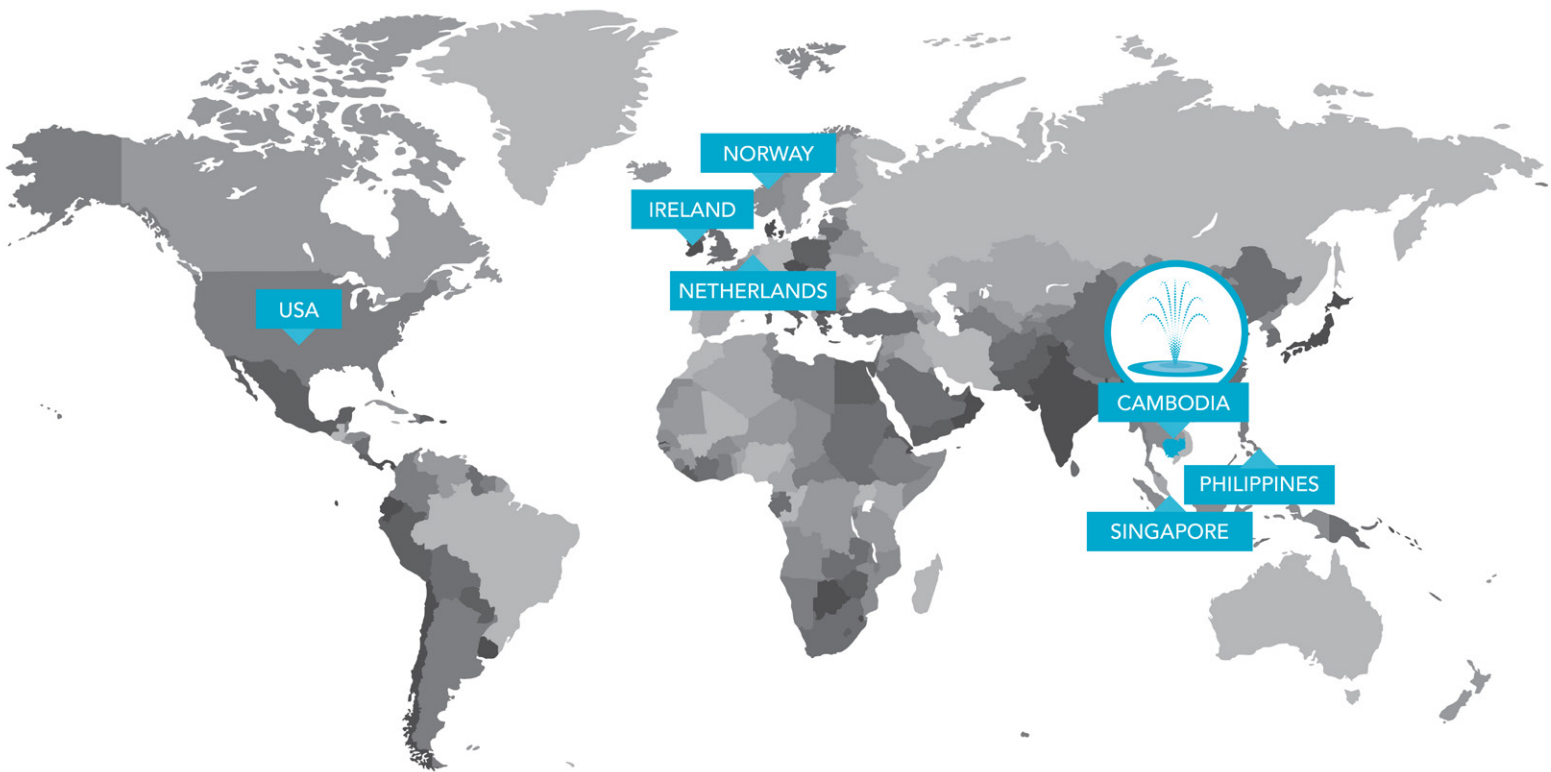

“I thank the FOH staff who are willing to help me with reading and writing. Your training brought an ever-lasting change in my life.”
